Southern Illinois University
COMMUNITY

Saluki Cares facilitates and coordinates a University-wide program of care and support for students in distress. By working closely with faculty, staff, students and their families, SIU Carbondale displays a culture of caring by demonstrating to our students and families that they are an important part of the community.

Saluki Cares is an early alert initiative composed of professionals from different areas of campus life who work with students on a regular basis: academic units, Dean of Students, New Student Programs, Center for International Education, University Housing, University College, Wellness Center and others. Referrals are made by faculty, staff, family members, peers or by the students themselves.
